## Barovier&Toso Milan Showroom

Located in the heart of Milan's Brera design district, Barovier&Toso's newly renovated showroom captures the elegance and artistry of the brand's storied lighting creations. Designed by Vandersandestudio, the expanded interiors—decorated in blue and cream tones with brass and wood detailing—serve as a complementary backdrop for the company's handblown glass works.

INTERIORS

## Belvedere Restaurant

After a closure lasting more than 18 months, London's historic Belvedere restaurant has reopened, revealing an extensive renovation by Archer Humphryes Architects, who chose furnishings by Fratelli Boffi for the project's interiors. The restaurant, which occupies the site of the former stables built for Holland House in 1638, features a two-story dining room with a colonnade that opens onto Holland Park. Dark wood furniture mingles with lush greenery to create escapist interiors with an elegant air. ✨—*Rachel Gallaher*
